Comparative Evaluation of SLAM Implementations [TITLE TBD]

Victor Swekis, [Group Member 2], [Group Member 3], [Group Member 4]

***Abstract*—[Context: why SLAM matters for autonomous robot systems.] [Problem: which SLAM approaches are compared and why.] [Method: dataset/simulation, SLAM systems, metrics (ATE, RPE).] [Results: key quantitative findings.] [Conclusion: interpretation and limitations.]**

I. Introduction

II. Methods

A. SLAM Approaches

B. Dataset and Setup

C. Evaluation Metrics

III. Results

IV. Discussion

V. Conclusion
